# Furkan K. **Yıldırım**

COMPUTER SCIENCE & INDUSTIRAL ENGINEERING · SENIOR STUDENT

☐ (+90) 533 376 47 96 | ✉ furkankyildirim@gmail.com | ⌂ www.furkankyildirim.com | furkankyildirim | furkankyildirim

## Education

**Sabancı University**                                                                                            *İstanbul, Turkey*

B.S. IN COMPUTER SCIENCE & INDUSTRIAL ENGINEERING (DOUBLE MAJOR) - BUSINESS ANALYTICS (MINOR)          *Sep. 2019 - Expected: Jun. 2024*

- **Computer Science Featured Courses:** Data Structures & Algorithms, Software Engineering, Programming Languages, Operating Systems, Database Systems, Network Systems, Mobile Application Development, Data Visualization & Analysis, Machine Learning, Logic & Digital System Design, Cybersecurity Practices and Applications.
- **Industrial Engineering Featured Courses:** Operation Research, Business Strategy, Simulations, Decision Economics, Information Systems, Logistic System Planing & Design, Decision Making Under Uncertainty, Management Information Systems.

## Skills

| | |
|---|---|
| **Front-end** | React, React Native, Flutter, HTML5, CSS |
| **Back-end** | FastAPI, Flask, REST API, Firebase |
| **Programming** | Python, C++, C#, JavaScript, Dart, SQL, Verilog, Rockwell Arena |
| **Other** | Discrete Event Simulation, Vehicle Routing Problems, Software Architecture & Design, Mobile Application Development, Web Development, Agile Software Development, Object Oriented Programming, Web crawling, CI & CD |

## Professional Experience

**Getir**                                                                                                          *Istanbul, Turkey*

ALGORITHM DEVELOPER                                                                                          *Nov. 2022 - Nov. 2023*

- Took role in the improvement and development of micro-services that receive 1.2M orders per day by using Python.
- Participated in the development of business logic algorithms to deliver orders in the most efficient way in GetirMarket domain.
- Maintained in the development of Discrete Event Simulation to optimizing test and run-time performances of the algorithms by using Python, FastAPI, Numpy and Pandas in GetirMarket domain.
- Worked on visualizing and analyzing data results from VROOM, OSRM and New Relic on the Getir Market platform using Python.

ALGORITHM DEVELOPER INTERN                                                                                   *Apr. 2022 - Nov. 2022*

- Worked on optimization test and run-time performances of OSRM and VROOM results with Discrete Event Simulation on Getir Market platform using Python libraries FastAPI, Numpy and Pandas.
- Developed unit tests, developed integration tests and refactored code-bases for micro-services of the Getir Market platform using Python.

**Sabancı University**                                                                                             *Istanbul, Turkey*

LEARNING & TEACHING ASSISTANT                                                                                *Oct. 2021 - Jun. 2022*

- Assisted Instructor Gülşen Demiröz on Data Structures Course, gave homework, graded, and helped students on assignments, also held weekly office hours.
- Assisted students with their Python learning through weekly recitation sessions in the Computational Approaching to Problem Solving Course.
- Under the supervision of Prof. İnanç Arın, extracted Turkish texts from PDF images using Python and certain API's with Sabancı University Center of Excellence in Data Analytic.

**CRS Software**                                                                                                   *Istanbul, Turkey*

SOFTWARE ENGINEER INTERN                                                                                      *Jan. 2022 - Feb. 2022*

- Created and developed an e-commerce platform with .NET using C# language during the internship.
- Gained information on how to do market research and processes of system design.

**Hyperlink Digital Library**                                                                                      *Istanbul, Turkey*

SOFTWARE ENGINEER                                                                                            *Jun. 2021 - Jan. 2022*

- Developed a cross-platform mobile application of an e-Book Library with Flutter. Deployed at **Google Play Store** and **App Store** on January'22.
- Helped develop Semantic Search API in an e-Book Library with Python Flask, Redis and MySQL.

## Projects

**Solving the Multi-layer Thin Films Problem with Optimization Techniques**

RESEARCH STUDENT                                                                                             *Jun. 2023 - Present*

- Under the supervision on Prof. Dr. Burak Kocuk and within the scope of Sabancı PURE program, aimed to optimize the reflectivity of a metallic substrate by carefully selecting and layering dielectric materials, utilizing mixed-integer nonlinear programming techniques using Python and Gurobi Optimizer.

### Delivery Route Optimization at E-Bebek Company

TEAM LEADER - ALGORITHM & BACK-END DEVELOPER *Oct. 2022 - Jun. 2023*

- Under the supervision of Prof. Dr. Bülent Çatay for graduation project, developing an algorithm that, deal with Vehicle Routing Problem (VRP) variant that matches orders with the delivery vehicles in E-Bebek Company and determines visualizes the vehicle routes, with Python.
- As a result of the analyzes made after the developments, it is expected that the cost will be reduced by 20% and 1.2M₺ per year with the routes created using the new model.

### Voidture, E-Commerce Platform

LEAD MOBILE APPLICATION DEVELOPER & BACK-END DEVELOPER *Feb. 2022 - Jun. 2022*

- Developed an e-commerce mobile application for Furniture using Flutter and led the mobile application team.
- Took part in the demo presentation of the application. Used Jira and Bitbucket to maintain the project.
- Worked on the service development part of the application using FastAPI, PostgreSQL, Redis and Docker.

### SUprerequisites, Analyzing Prerequisites of Courses of Sabancı University

ALGORITHM & BACK-END DEVELOPER *Oct. 2021 - Jan. 2022*

- Under the supervision of Prof. Dr. Hüsnü Yenigün, developed an algorithm and a script with Python to collect and analyze the prerequisites of Sabancı University courses. Visualized the analyzed data using JavaScript and Python Flask.

### SUchedule, Mobile Application

FULL-STACK DEVELOPER *Sep. 2021 - Oct. 2021*

- Developed a mobile application (SUchedule) with React Native and back-end service with Python Flask, allowing Sabancı University students to create their schedules with a friendly user interface.
- Deployed the project at **Google Play Store** and **App Store**. Reached 2000+ downloads with 4.9/5 ranks.

### WakeGuard, Location Based Alarm Application

MOBILE APPLICATION DEVELOPER *Jan. 2021 - Feb. 2021*

- Created location tracking and alarm application with React Native and Firebase named WakeGuard and leading the project.
- Deployed the project at **Google Play Store** and **App Store**. Reached 1000+ downloads with 4.8/5 ranks.

## Competitions & Honors & Certificates

### COMPETITIONS

| | | |
|---|---|---|
| 2022 | **ITU ACM Algocomp'22,** Ranked 15th with my team among 300+ teams in the competition which is an algorithm-based coding competition. | *Turkey-Wide* |
| 2021 | **Inzva Hackerspace**, Ranked 1st at Sabancı University and 9th on overall with my team among 200+ teams in the competition which is an algorithm-based coding competition. | *Turkey-Wide* |

### HONORS

| | | |
|---|---|---|
| 2023 | **Sakıp Sabancı %100 Encouragement Scholarship,** Awarded for academic achievement | *Turkey-Wide* |
| 2023 | **Dean's High Honor List,** Achieving grade more than 3.5 over 4.0. | *Turkey-Wide* |
| 2022 | **Sakıp Sabancı %100 Encouragement Scholarship,** Awarded for academic achievement | *Turkey-Wide* |
| 2022 | **Dean's High Honor List,** Achieving grade more than 3.5 over 4.0. | *Turkey-Wide* |
| 2021 | **Dean's High Honor List,** Achieving grade more than 3.5 over 4.0. | *Turkey-Wide* |
| 2019 | **High Success Scholarship**, Ranked 1365th among 1,500,000+ students (0.09 percentile)in National University Entrance Exam (YKS 2019). | *Turkey-Wide* |

### CERTIFICATES

| | | |
|---|---|---|
| 2023 | **Microsoft Power BI - The Practical Guide**, | *Udemy* |
| 2022 | **Excel to Access: Intro to Microsoft Access for Excel Users**, | *Udemy* |
| 2022 | **EXCEL at Work - Complete MS Excel Mastery Beginner to Pro**, | *Udemy* |
